***Response to Amendment***

Applicants' amendment filed on June 18, 2004 has been entered and forwarded to the Examiner on June 24, 2004.

Therefore claims 1,9,11,12, 17 as amended by the amendment and claims 2-8,13-16 and 18-20 as previously recited are currently pending in the Application.

***Reasons for allowance***

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which include a method of verifying a reticle, comprising the steps of providing a substrate having a uniform surface depositing a non-resist layer over the uniform surface of the substrate; forming a layer of resist over the non-resist layer; forming a reticle pattern in the layer of resist; transferring the reticle pattern to the non-resist layer; forming a conformal layer over the non-resist layer, wherein the non-resist layer includes a transferred reticle pattern, at least a portion of the transferred reticle pattern extending through the non-resist layer; and inspecting the transferred reticle pattern for defects by comparing the transferred reticle pattern with a -good reticle pattern. (" good " defined in specification page2 lines 3-4 and amendment page 7 footnote ).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
